Matura Solutions - Pre-intermediate : Student's Book

Solutions: Upper-Intermediate: Student Book

A new, refreshed edition of the five-level English course for teenagers, with a clear structure, supported approach to speaking, practice, and exam preparation still at its heart. Solutions has been thoroughly modernized with 80% new content to draw in students, embed the grammar and vocabulary presented, and engage them in the tasks. Its guided approach builds up every student's confidence, through step-by-step objectives, lots of practice, meaningful personalization activities, and exam preparation tasks. The course now embraces a wide range of teaching methods, furnishing the teacher with a flexible pick-and-choose package for use in the classroom, at home, and on the move. The digital elements of the course enliven the material and allow teachers to vary the pace and focus of their lessons. Solutions turns all students into active learners, by offering a rich variety of learning opportunities for a whole range of abilities through extension and revision activities in all components - giving everyone a sense of achievement whatever their level. The Solutions Second Edition DVD-ROM material and worksheets bring the language to life by taking it out of the classroom and into authentic settings.

The Workbook offers plenty of extra practice, revision, and reviews. Mirroring the Student's Book content, with the same clear structure, it provides extra reading and writing practice opportunities for both weaker and stronger students. The Writing Bank at the back of the book gives a quick guide to text types, with model structures and key language as well as exam strategies, plus a Functions Bank for functional phrases for speaking and writing. There is plenty of exam practice in the Get Ready for your Exam sections and these, along with the Self-Check pages after each unit and the review sections at the back of the books, allow students and their teachers to keep track of their progress as they work towards their exams. The accompanying Audio CD offers students a huge amount of listening practice. There are audio recordings for tasks in every lesson (not only for the Vocabulary & Listening lessons).

Solutions

Student Book: Specific listening and word skills lessons, to help develop well-rounded, confident communicators. Student Book: Additional resources, including exam skills trainer sections and extra speaking practice help consolidate what students have covered in the lessons. Student Book: Exam skills trainer sections prepare students for typical school-leaving/Cambridge tasks, and provide them with the language, strategies, and exam skills they need to achieve success. Student Book: Culture Bank includes 9 ready-to-use culture lessons linked to the topic and language of the main units, providing extra reading and listening practice. Online Practice: A particular focus on more in-depth practice of grammar, vocabulary, reading, writing, listening,
and speakingskills. Online Practice: Media-rich content (vox pops, vlogs, grammar animations) with interesting and engaging topics and texts. Online Practice: Automatic marking with instant feedback, and progress tracked in the gradebook to save time. Online Practice: Content aligned to the CEFR and the Solutions syllabus which complements and extends the contents of the book.

**Maths Problem Solving Year 5**

Maths Problem Solving - Year 5 is the fifth book in the Maths Problem Solving series. The books have been written for teachers to use during the numeracy lesson. They cover the 'solving problem' objectives from the numeracy framework. This book contains three chapters; Making decisions, Reasoning about numbers or shapes and Problems involving 'real life', money or measures. The books are designed in such a way that each section has six stages of questions to be worked through. Every stage is split into three levels, for example 1a, 1b or 1c, based on achievement. Each corresponding question from these levels follow the same line of questioning, so that when the teacher talks about a certain question, the solution process is the same for each level but the complexity of the sum varies.
